

The project

“Team sociomapping product innovation through mining data collected in 2013 to 2019”

is jointly funded by the European Union.

In 2020, QED GROUP a.s. received support from European structural and investment funds implemented through Operational Programme Prague – Growth Pole of the Czech Republic and received within the third call for Prague’s Innovation Voucher (reg. no. CZ.07.1.02/0.0/0.0/16_027/0000605).

This support was directed at QED GROUP a.s.’s participation in the project “Team sociomapping product innovation through mining data collected in 2013 to 2019” in Prague in order to perform a comprehensive analysis of sociomapping anonymised data. The anticipated outcome is innovation in team and individual sociomapping reports on the basis of benchmarks and other contexts ascertained during data analysis.
